

Volition™

UK format Faceplates Keystone

UK format Faceplates

The 3M™ Volition™ faceplate range can be loaded with either K5e or K6 jacks to offer the following configurations

- single gang, 1 port
- single gang, 2 ports

A label holder and a white application icon (coloured icons are available separately) gives a smart and functional appearance to the faceplate.

The choice of UTP, FTP or STP 360° braid or foil connection RJ45 K5e or K6 jacks offers you the required electromagnetic compatibility level.

Features

- Category 6 hardware sockets when loaded with 3M RJ45 K6 jacks
- Fits in all outlets and trunking suitable for 86x86 mm faceplates
- Easy installation, even on shallow trunking and outlets, thanks to the low profile jack and the choice of cable entry from top or bottom on all versions of the jack.
- When loaded with the RJ45 K5e or K6 jacks, the faceplates have all the benefits of their unique tool-less design.

Benefits

- easily assembled, high performance outlet
- versatile positioning in a wide range of trunking and outlets
- versatile faceplate will fit into a wide range of trunking and outlets
 - fast reliable connection in record time: all 8 copper conductors are effortlessly terminated in a single operation
- quality of connection by design: not dependant on tool condition or operator skill - just listen for the click
 - consistent results: length of untwisted pairs and length between the end of the conductor and the IDC contacts are always kept to a minimum - by design

Specifications
